

FLEXGRID MALI SARL

Mali

Solar Mini Grids

US\$500,000

Innovative mini grids powering 50 underserved villages.

FlexGrid Mali SARL builds, delivers and operates “decentralised” mini grids in Mali. Through REACT SSA, FlexGrid Mali SARL aims to connect more households and small businesses in 50 villages in rural Mali to mini grids providing them with modern lighting solutions.

Expected Impact

0.8 MW of clean power intalled.

1,051 MWh of electricity generated per year.

1,100t CO₂e per year avoided.

17 direct jobs created.

2 842 households connected.

906 SMEs supported.

14,210 people reached.
