Introducing ethanol and ethanol stoves as a clean cooking alternative

Katénè Kadji SARL designs, manufactures, and distributes energy efficient cook stoves in Mali. The company also undertakes last mile distribution of alternative clean cooking fuels. Through REACT SSA, the company is introducing an ethanol stove and ethanol as a clean cooking alternative to urban and peri urban populations of Mali that predominantly use charcoal for cooking.

Expected Impact

24,000 ethanol stoves distributed.

39 MWh of clean power installed.

9 direct jobs created.

70 SMEs benefiting.

30,000t CO₂e per year avoided.

23 million litres of ethanol sold.
