Scaling up rural electrification of Ténéni Municipality

SEECO Mali SARL builds and operates micro grids in rural Mali. Through REACT SSA, SEECO is building new solar micro grids while replacing diesel-powered ones with solar power to serve the rapidly expanding municipality of Ténéni.

Expected Impact

1576 households connected.

80 productive energy users served.

20 direct jobs created.

0.215 MW of clean power installed.

282 MWh generated per year; saving 95,000 litres of diesel per year.

320t CO2e per year avoided.
