Scaling up energy access across 5 provinces in Mozambique

Epsilon Energia Solar SA sells certified pico solar systems to off-grid families using the PAYGO model in Mozambique. Through REACT SSA, the company aims to scale up its distribution of the pico solar systems through the PAYGO model to reach Manica, Zambezia, Nampula, Gaza and Inhambane Provinces in Mozambique.

Expected Impact

93,000 households reached.

100 direct jobs created.

Net benefit of **US\$62** per year per household.

465,000 people reached.
