Innovative microgrids in the Kayes Region of Mali

Africa GreenTec Électrification Rurale Sarl (AGT-ER SARL) is a micro grid developer and currently operates microgrid sites of between 50kW and 100kW in Mali. Through REACT SSA, AGT-ER SARL is scaling up its microgrids in the Kayes region of Mali, located Northwest of Bamako providing power to previously unserved households and productive power users.

Expected Impact

630 households reached.

3150 people reached.

0.15 MW of clean power installed

197MWh of power generated per year.

220t CO2 e per year avoided.

6 direct jobs created.

70 productive power users reached.

250 SMEs facilitated.
