Providing access to improved cookstoves in Burkina Faso

POCERAM focuses on the production of ceramics, where it produces improved cookstoves (ceramic stoves with refractory inserts) and terracotta bricks targeting peri urban and rural households. Through REACT SSA, POCERAM is sustainably manufacturing and distributing energy efficient ceramic cookstoves to households in Burkina Faso ensuring that households reduce expenditure by up to 24.3%.

Expected Impact

424,000 improved cookstoves distributed (55,000 annually).

212,180 households reached.

191,000t CO₂e avoided.

1,060,900 people reached.
