

ENTERPRISE ECO-CONSTRUCTION ET SERVICES (EECS)

Burkina Faso

Clean Cooking

US\$300,000

Establishing and scaling up commercial biogas operations

Enterprise Eco Construction (EECS) promotes bio digesters and other related services. Through REACT SSA, EECS is promoting the use of biogas in rural and peri-urban populations in Burkina Faso. The company also targets small businesses such as local restaurants that tend to use significant amounts of wood fuel.

Expected Impact

2,390 agro-pastoral households reached.

Avoid burning **5,749** tonnes of wood per year.

Increase in household average income from an average of **US\$ 106** per year to more than **US\$ 1,300** per year.

60 full-time and seasonal jobs created.

11,950 people reached.
