Solar Home Systems +
Solar Pumping Systems

US\$470,000

Energy access acceleration through PAYGO-enabled SHSs and solar irrigation pumps

Rensys Engineering imports and distributes solar products, it also designs, supplies and installs institutional solar systems and minigrids. Through REACT SSA, the company will scale up the distribution of solar home systems and solar irrigation pumps. Rensys Engineering will also set-up a point-of-sale shop with ICT service desk to better serve its customers.

Expected Impact

20,000 solar home systems distributed.

5,000 solar irrigation pumps distributed.

18 direct jobs created.

125,000 people reached.

25,000 households reached.
