PAYGO solar home systems for Liberian households

SJedi Green Energy sells improved cookstoves across Liberia. The company also distributes small solar home systems and household appliances such as TVs, radio, lamps, ACs and fans. Through REACT SSA, Sjed Green Energy is establishing a PAYGo business model linked to the distribution of its solar products.

Expected Impact

- 
13,600 solar home systems distributed.
- 
13,825 households reached.
- 
12 direct jobs created.
- 
69,125 people reached.
