### Setting up a cookstove manufacturing plant in Liberia

Liberia Eco-Supply Ventures, Inc manufactures and distributes fuel-efficient stoves for school feeding programs, hospitals, hotels and restaurants in peri-urban and rural communities in Liberia. Through REACT SSA, the company is setting up a manufacturing plant in Liberia to produce high quality efficient stoves that will lead to reduced annual cooking expenditure in homes and reduce deforestation.

### Expected Impact

15 direct jobs created.

323 households reached.

392 SMEs (restaurants, hotels and motels) impacted.

16,510t CO2e avoided.
